

Youth Digital Social Innovation

2017-3-PL01-KA205-047183

Short training event in Udine

A case of social innovation

Shalom Zibershmidt

Sys Technologies (Israel)

Udine, January 28 2019

SYS Technologies is an innovative company, which offers a variety of solutions and breakthrough technology in the field of indoor clean environment systems, as well as portable solutions.

The company has identified the growing needs, in the medical and industrial markets, for efficient, high quality, yet simple to maintain, transport and operate, clean environment systems.

SYS Technologies currently offers its customers a wide variety of solutions for clean environment systems, divided into three divisions:

Industrial division

Medical division

Project division
